

Social Impact Bonds Consultation Report – Questions from the Field

On March 12th Shelter SA held it's first Social Impact Bonds consultation with stakeholders who wanted to learn more and participate in conversations about the potential of integrating SIBs into the Community Services Sector. Key aims of the consultation were to:

- Engage the sector in dialogue and discussion about SIBs;
- Gauge levels of interest and test levels of knowledge;
- Identify capacity building directions and needs;
- Validate the findings of the Shelter SA critical review.

As a result of the consultation, more questions than answers were raised. We have produced the Social Impact Bonds Consultation Report which is available for you to read [here](#). Please share with your colleagues and for more information contact the Shelter SA office on 8223 4077 or via email sheltersa@sheltersa.asn.au
